

SC1000 Installation Instructions

Serial No.

Thank you for your purchase of SC1000 Sport Ramp. Before you begin loading and unloading with your new ramps, please take a moment to read and understand the detailed safety precautions and operational instructions.

Safety Precautions

- **If loading and unloading from a vehicle, be sure the vehicle is on level ground with the parking brake set and the engine off.**
- **Sport Ramp has a maximum load capacity of 750 lbs per individual ramp. Do NOT exceed this capacity.**
- **Ramp surfaces are slippery when wet.**
- **Make sure the load is centered onto the Sport Ramp, not doing so can lead to damage to equipment and may cause bodily harm!**
- **There is a maximum tailgate height of 36 inches for an ATV and 30 inches for a lawn tractor from the ground to the loading surface. Exceeding this limit will result in a loading angle that is too steep causing the ramp to be unstable and can cause a "kicking out of the ramp" from under the equipment. Causing serious damage to the ramp, equipment, tailgate or personal injury!**
- **DO NOT ride equipment up or down the ramp. Make sure the equipment is turned "off", get assistance to load or unload if needed.**
- **DO NOT use ramps as scaffolding or bridges.**

Use and Operation

Once the ramps are unfolded and setting on the edge of the tailgate or trailer, securely attach the safety straps to the underside of the truck or trailer using the S-hooks provided with the other end attached to the crossbar of the ramp (approximately two thirds the way up the ramp). Tighten the strap until taut to prevent the ramps from moving while loading or unloading. Failure to use the safety straps could lead to damage to the ramp, equipment, tailgate or personal injury!

- **Inspect the ramps periodically to ensure all bolts/straps are tight and in good working condition.**

Failure to follow the above safety precautions will void any warranty explicit or implied. The manufacturer/distributor/dealer will not be held responsible for any damage to person or property due to the misuse of this product, or the failure to follow the above "Safety Precautions".
